

## MANDATORY GEAR

Are you asking yourself: *why...!?* Why do I have to take all this gear!?

Well, if we're lucky enough to have good weather conditions, and if you and the runners around you have no issues, you won't be taking any of this out of your run vest – and yeah, that could feel a little frustrating...

**BUT**, if we have cold, windy, wet, and/or snow and ice weather conditions (yes, all of the above can and do happen in Tasmania in March! Check out: <https://www.youtube.com/watch?v=TTBfRftPTCE>), or if you or a runner around you has an injury that requires slowing to a walk or even stopping to wait for a rescue (which could be in the exposed alpine zone with windchill perhaps at minus 10 degrees), then you will be thinking that this list is barely enough gear – and that is true, this list is the minimum mandatory gear required to survive in the potential weather conditions whilst you wait for a rescue. You should survive ok, but you will not be comfortable!

But when do I use the mandatory gear? As soon as you are getting wet and/or cold, or are about to. If you are unable to continue and need a rescue, or are taking care of someone who is waiting for a rescue, take off your wet clothes, put on all your mandatory gear, try to sit/lay on something that isn't going to suck the heat out of you, and get in the emergency bag.

*Friendly reminder - you are required to be self sufficient between aid stations which often can be remote with no vehicle access. Trail running can be a dangerous activity even if you are fit and prepared, and especially if you are unfit, unprepared, dehydrated, low on energy, do not use mandatory gear when you should, or do not adhere to run organiser team instructions*

Take care of yourself and your fellow runners out on course!

\* **ADVERSE WEATHER** – kMR organisers will advise by 7pm the night before if the adverse weather gear is required.

Item	Description	Example photo	Ultra Relay (all runners) and Solo	Mountain Run (25km)	Vertical Kilometre & Foothills 10km
Waterproof jacket	Waterproof and Breathable hooded jacket with fully taped waterproof seams – eg, Goretex or similar		✓	✓	✓ If adverse weather*
Waterproof over trousers	Any waterproof over trousers made of robust material		✓ If adverse weather*	✗	✗
Long Sleeve Thermal Top	Thermal baselayer (eg, merino, polypropylene) which the manufacturer's online product description clearly states is to perform as a thermal. Non-thermal materials eg, Cotton, coolmax, lycra, are not acceptable		✓	✓ If adverse weather*	Recommended if adverse weather
Thermal long johns (full leg)	Thermal baselayer (eg, merino, polypropylene) which the manufacturer's online product description clearly states is to perform as a thermal. Non-thermal materials eg, Cotton, coolmax, lycra, are not acceptable		✓ If adverse weather*	✗	✗
Beanie	Thermal Beanie (eg, merino) – not a Head Sock (Buff)		✓ If adverse weather*	Recommended if adverse weather	✗
Gloves	Gloves that maintain warmth when wet and are dexterous enough to open a ziplock bag – eg, quality outdoor gloves, neoprene kayaking gloves		✓ If adverse weather*	Recommended if adverse weather	✗
Headtorch	Minimum 300 lumens. Fully charged and battery able to last at least 6hrs or take spare batteries. Battery will be checked at the finish line. Body mounted torch acceptable if has a purpose built harness/belt.		✓	✗	✗
Mobile smart phone	With Capra app installed. Must be fully charged at start of the race and battery be able to last the full duration of your run with whatever apps you are running. Your phone will be checked for battery life at the finish line. Take an external battery pack if required, consider running on airplane mode, or can charge at an aid station if required. <b>If you become lost or are travelling very slowly, are injured, or may require assistance for any reason, turn your phone on immediately.</b>		✓	✓	✓
Compass	Any compass as long as the magnetic needle will settle quickly and will point to magnetic North. A waterproof GPS enabled watch with compass function is allowed to be used as your compass as long as you can calibrate it, know how to use it and the battery will last for the full duration of your race. A smartphone compass is not acceptable as most smartphones are not waterproof and the batteries may be needed for making emergency calls.		✓	✗	✗

**MANDATORY GEAR**

Item	Description	Example photo	Ultra Relay (all runners) and Solo	Mountain Run (25km)	Vertical Kilometre & Foothills 10km
Whistle	A pea-less whistle. Comes as standard with most trail running vests.		✓	✓	✓
Reflective safety vest	A Hi Vis safety vest with reflective tape of AS/NZS 4602 standard for Day/Night use. Must be big enough to be worn over your running vest.  To be worn at night or when running on road in low visibility.		✓	✗	✗
Survival Bag	A reflective foil survival bag or bivvy sack. A space blanket is not suitable – must be a bag.		✓	✓	✓

One race number is provided per relay team. The same race number must be used by each runner. A tri/race belt is the easiest way to swap the bib between runners, and your timing chip can also be affixed to it.  Emergency instructions will be printed on the back of the race number		✓	✓	✓
Timing chip	<i>PROVIDED BY kMR</i> - A small and light plastic timing chip on a Velcro band that can attach to your wrist, ankle, vest, or a relay belt.		✓	✓	✓

\* **ADVERSE WEATHER** – kMR organisers will advise by 7pm the night before, if the adverse weather gear is required

**CAPRA Map instructions:**

1. Save the kMR 'Collection' to your library screen in the app. This makes it easy for you to quickly access all the information for each race and relay leg. You can scan the QR code to automatically save the Collection if you don't have it already.
2. Individual races and map info 'pins' can be bookmarked for quick access via the Bookmarks screen. This is especially useful if you want support crew to focus on a particular point on the map.
3. **Capra maps provide excellent detail even if offline but make sure you've looked at your race map before you set off as the app stores the map detail automatically for use offline.** Mandatory gear check is a great time to ensure you've looked at your race map.
4. If you have an emergency tap the 'life ring' on the map to give you your exact lat/long details which can be shared easily if you have even a small amount of signal.
5. You can close the app and put your phone away, e.g. when you're racing, and when you pull it out the app will open to the screen you were on making it battery efficient to use as back up in a race.
6. Each race / relay leg map can be shared easily with friends and support crew via the menu option.
